

GTM BUILD REPORT: STRIKE 012

Product: ScriptureScout [FHG] — Version 1.0.0 (Harvested)

I. THE COMMERCIAL HOOK

"Digital Bible study is locked behind cluttered, ad-heavy web interfaces. **ScriptureScout [FHG]** is the kinetic bridge that cleans the noise, giving you a pure path from discovery to documentation."

The Opportunity: We identified 'market blood' in manual extraction friction. Students were losing significant study time cleaning verse numbers and footnote noise. We automated that friction away to preserve focus for the Word.

II. PILLAR IDENTITY: FOR HIS GRACE (FHG)

FHG is the 864zeros vertical dedicated to reverence and durable scholarship.

- **Mission:** Heritage-first technology. Preserving what matters most.
- **Aesthetic:** **Charcoal & Bronze** (#2D2D2D / #A67C52).
- **The Parchment Standard:** Optimized light-mode contrast (#F5F5F5) for long-form study.

III. TECHNICAL MOATS

Feature Brick	The Engineering Moat
Marquee Engine	Custom Bronze UI selection overlay bypassing brittle browser-native highlighting.
Heritage Logic	Automated conversion of BibleHub Interlinear tables to valid GFM Markdown tables.
	Precision noise-stripping profiles for BibleGateway and Blue Letter Bible.

Feature Brick	The Engineering Moat
Clean-Room Extraction	
Sovereign Storage	100% Local-First (IndexedDB). No external pings; data remains with the student.

IV. ECOSYSTEM STRATEGIC VALUE

ScriptureScout serves as the high-velocity "Wedge" for the **Bible Insight** flagship. It establishes a footprint in the browser workflow, facilitating a seamless upgrade path to AI-assisted synthesis and sermon transcript integration (TR-06/TR-07).

V. 864ZEROS FACTORY COMPLIANCE

- **Architect Sign-off:** 864z-OA (Office Architect) — Verified 2026-05-08.
- **Rule Compliance:** RULE-001 (Control), RULE-002 (Download), RULE-003 (Liberation).
- **Governance:** Codified in ROLES/OFFICE_ARCHITECT.md.
